

What does the HSA do?

The **Humane Slaughter Association** is the only registered charity that works, in the UK and internationally, through educational, scientific and technical advances, exclusively towards the highest worldwide standards of welfare for food animals during transport, marketing, slaughter, and killing for disease control and welfare reasons.

The HSA achieves its aims by:

- arranging practical training sessions
- producing videos and publications
- funding research projects
- visiting markets and abattoirs
- providing constructive advice and information

all targeted towards those involved in animal handling, transport and slaughter. This positive, rational approach continues to achieve significant improvements to food animal welfare.

How you can help the HSA

The HSA depends entirely on voluntary subscriptions and donations. The annual subscription for individual members is £15, for societies and corporate groups £50 and for those in full-time education £5. Further details may be obtained from the HSA Office or on our website.
